

HOW TO CREATE YOUTUBE PENCAST VIDEOS

by S Newman-Gomez

Off campus I communicate with students using YOUTUBE PENCAST VIDEOS like this one:

Youtube videos are viewable on all devices, including smartphones, can be fast-forwarded, reversed, muted, and frozen... great stuff!

To make such videos you will need:

- **Communication Platform** (like the **free** Proboard Forum)
- **Smartpen** (try the LifeScribe Echo model)
- **Bandicam Download** (try their **free** version)
- **Youtube Account** (open a **free** account)
